Executive Director of the National Science Teachers Association

The Search Committee of the National Science Teachers Association invites nominations and applications for the position of Executive Director.

The National Science Teachers Association (NSTA) is a professional organization of educators and scientists devoted to the stimulation, improvement, and coordination of science education at all levels of instruction. NSTA maintains its national headquarters in Washington, D.C. It publishes several journals, a News-Bulletin, and other materials. It holds an annual convention and several area conventions, and is involved with many special projects in science education, both nationally and internationally.

It is desirable for candidates to have a minimum of the Baccalaureate degree, preferably in the sciences or science education. Administrative achievement and a demonstrated capacity to exercise educational leadership are other important qualities.

The application deadline is July 25, 1979. Nominations and inquiries should be directed to:
